Subject: Intruder Detection Audit Information

Date: November 8th, 2022

Background Information and Rational - Texas Safety Center along with Governor Abbott require all schools to go through a safety audit. Schools are informed what week it will be but not the date. The goal of the Safety Audit is to ensure schools are proactive about securing the school. **There are 5 General Findings:**

- Unsecured access gained into school

- Unsecured exterior doors

- Unsecured Classroom doors

- Documentation of weekly exterior door

sweeps was not observed
this time

- No Findings documented by inspector at the

Explanation - The door to the maintenance office was unlocked due to a nasty fall of the ladder of our maintenance staff. Key personnel were involved in calling the ambulance and supporting him to pick up his kids.

I missed a day of the door audit checks. The plan in place is that I check doors every day. But to be effective I'll be asking campus staff to rotate checking doors twice a day. This supports the requirements especially if I am out of school.

Unsecured Exterior Door Plans & Documentation of weekly exterior doors sweep audit- All doors are checked by the district staff in the mornings or afternoons. Whoever does the check initials on the door sheet and we then log it in Navigate360 under our drills. The Plan is kept in the office of the facility and operations manager. If a door is found unlocked it is marked and reported to the Safety Committee.

Support of EFWMA Strategic Goals -

Goal 1 - Students will increase academic achievement and success through structured systems in place to improve the effectiveness of teaching and learning.

Goal 2 - To create a school culture of collaboration and learning where excellent teachers are recruited, retained, and trained.

Goal 3 - To engage all stakeholders in relevant experiences in the school, ie.. parent engagement.

Goal 4 - To create financial sustainability through creative and strategic funding allowed by

Budget and or Fund Impact - Fund 282
